

This is a 32 lesson self-study Bible course specifically written for the challenging times in which we live. Focusing on major end-time prophecies and other great Bible themes, each lesson's questions are linked to Bible passages (KJV) on this website which answer today's most important questions.

To begin, you'll need a *King James Bible* which is the textbook for this course. Each study contains questions and Bible references. Carefully read each question. Find the text in your Bible (or click the Bible link if online), and read the answer. It might be the entire verse or verses, but usually the question is well answered in a single phrase. Copy the necessary portion of the verse on paper, or better yet, keep a notebook of your studies. If you have a hard time finding the answer, first check to make sure you have the right verse. Then read the question again. If the verse still does not make sense, copy it anyway and go on to the next question. As you continue, the verses that follow should help to clarify it. When you are finished, it is always good to *read through the lesson again* to get the whole line of connected thought. If you do not have a *King James Bible* you can click on the Bible verse and the link will take you to an online *King James Bible*.

These lessons build upon the previous lessons, so it is important to follow them in sequence.

Some lessons have additional material that can be read by clicking on the supplement link.

If there is a subject which is not covered in these lessons, you might check the *180 Bible Study topics* found in the online book— [Bible Readings](#).

Lesson Titles

1. How Can We Know the Future?
2. Will There Soon Be One World Government?
